noesis

European Funding | International Cooperation

Company Profile

Consulting, management and training for European and International programmes

2026

Noesis at a glance

We are a consulting company specialising in technical and managerial support and training in the field of European and International policies and funding programmes.

Since 2006

Building on extensive experience in the design, coordination and management of transnational projects.

80+ projects

Experience in over 80 projects funded by the European Commission, its Executive Agencies and international cooperation programmes.

Comprehensive support

From partnership building and proposal submission through to implementation, management, financial reporting and technical reporting.

Established network

Cooperation with universities, public authorities, training organisations, research institutes and private entities.

Sectoral focus

Environment, energy, culture, sustainable development, international cooperation, training and higher education.

Strengths

Management quality, administrative and financial compliance, strong partnerships and exploitation of results.

Objectives

Contributing to sustainable, inclusive and knowledge-based development through high-level expertise in the design, management and delivery of training on European and International programmes, with particular attention to:

- Mobility and exchange of expertise
- Institutional capacity building
- Management quality and robust processes
- Building strong international partnerships
- Administrative and financial compliance
- Capitalisation of results

Services

- **Design and drafting of project proposals** for European and International funding programmes
- **Management and coordination of funded projects and European and international partnerships** involving academic, institutional and private-sector organisations, including partner communication, international cooperation and exchanges
- **Administrative and financial management, budget control and financial reporting**
- Organisation and management of **events, workshops, training activities and international conferences**
- **Strategic communication**, dissemination and capitalisation of results
- **Capacity building, skills development and training** for public authorities, universities, training institutions and economic operators.

Expertise

Project Management
Support for the coordination and management of complex transnational projects.

Financial Management
Financial management, compliance control and financial reporting.

Partnership Management
Coordination of international networks, communication flows and cooperation among partners.

Communication
Dissemination, capitalisation, events, workshops and international conferences.

Regulatory know-how and EU tools
Extensive knowledge of European and national legislation, multilevel governance, international cooperation and the eMS, JEMS and EU Funding & Tenders Portal platforms.
